

S8 Big choice, compact design

S8

Technical overview

JURA standard features

Variable brewing chamber, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Second, ground coffee	■
Hot water function	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma G3 grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Intelligent preheating	■
Integrated rinsing, cleaning and descaling programme	■
Integrated milk system rinsing and cleaning programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■

Specific advantages

One-Touch-Funktion	■
Milk system	Professional fine foam frother
Pulse Extraction Process (P.E.P.®)	■
Intelligent water system (I.W.S.®) with CLARIS Smart filter cartridge	■
Touchscreen colour display	4.3"
Sensitive-Touchscreen Technology®	■
Wireless ready	■
Compatible with the JURA Coffee App	■
Recognition for second, ground coffee	■
Active bean monitoring	■
Monitored drip tray	■
Maintenance status display	■

Settings and programming options

Programmable amount of water	■
Amount of water adjustable for each preparation	■
Programmable coffee strength	10 levels
Coffee strength adjustable for each preparation	■
Store, copy and personalise products	■
Programmable brewing temperature	3 levels
Programmable hot water temperature	3 levels
Programmable switch-off time	■

Design and materials

White cup illumination	■
Amber cup illumination	■

Also supplied as standard

Container for milk system cleaning	■
------------------------------------	---

In figures

Width-adjustable coffee spout	72 – 118 mm
Height-adjustable cappuccino spout	114 – 160 mm
Height-adjustable hot-water spout	114 – 160 mm
Water tank fill volume	1.9 l
Coffee grounds container (servings)	ca. 16
Bean container with aroma preservation cover	280 g
Cable length	ca. 1.1 m
Voltage	230 V ~
Power	1450 W
Standby power	0 W
Weight	10 kg
Dimensions (W × H × D)	28 × 34.8 × 43.9 cm
Colour	Chrome

Benefits at a glance

- Ultimate coffee quality thanks to the Aroma^{G3} grinder and Pulse Extraction Process (P.E.P.®)
- 4.3" high-resolution colour touchscreen display with sophisticated operating concept for intuitive navigation
- Redeveloped professional fine foam frother for speciality coffees with the best milk foam quality
- One-Touch function for 15 speciality coffees – from espresso to latte macchiato

S8

Big choice, compact design

With its harmonious clean lines, the stylish S line exudes quality and precision in every way. It combines the best of the compact class with elements of the premium segment, including a hint of the GIGA. The impressive range of specialities and the stunning result in the cup satisfy even the most demanding coffee connoisseurs. The operating concept is based on simplicity and intelligence. The JURA S line creates a new segment in coffee machines: the premium mid-segment.

So many moments of pleasure to choose from

The stylish S8 creates the full range of specialities from espresso to latte macchiato to a masterful standard of quality. With just a touch on the colour touchscreen display, one of 15 different specialities flows into the cup. This is thanks to several outstanding innovations. The Aroma^{G3} grinder is now even more precise and twice as fast, yet preserves all the delicious aroma of the coffee beans. The Pulse Extraction Process (P.E.P.[®]) ensures the optimum extraction time for short specialities and delivers a taste explosion for espresso and ristretto. Trend specialities finished with milk and milk foam are brought to perfection thanks to fine foam technology.

Thoroughly modern operating concept

The integrated 4.3" high-resolution colour touchscreen display makes the machine incredibly simple to operate. A gentle touch with your fingertip on the screen, and your favourite beverage flows into the cup. The innovative operating concept with an eye-catching screen succeeds because it is so clear, simple and modern. Graphics and animations show every step of preparation, guiding the user through the process. The concept is designed to help you find what you want quickly. Individual preferences can be programmed in a few easy steps, allowing you to rename, move, copy or duplicate products in no time. If preferred, you can also control the coffee machine with the free, continually updated JURA Coffee App.

The ultimate milk foam

Characteristic JURA design reflects precision and quality down to the smallest detail. The new professional fine foam frother on the S8 is made from the highest quality materials and has a stunning look and feel. Specially designed for the preparation of speciality coffees with milk and milk foam, it makes latte macchiato and other beverages with the very best fine-textured foam – every time. Graphics and modern animations on the display make it easier than ever to use.

Design presence with unique details

Designers agree that the clean, symmetrical forms and harmonious lines of the S8 give it elegance and presence even at first glance. Refined materials and attention to detail combine to create a serene, harmonious whole. The cover of the bean container, made of hand-polished die-cast zinc, embodies the quality of the complete product. Details and thoughtful touches give the S8 a unique feel which is sure to please those who appreciate good design.
