

Z6

A world first P.E.P.®: Pulse extraction process

The benefits at a glance

- Pulse Extraction Process (P.E.P.®) optimises extraction time to guarantee professional quality, barista-style coffee
- Automatic switchover from milk to milk foam makes it easier than ever to create trend specialities
- The Intelligent Water System (I.W.S.®) automatically detects the filter while the CLARIS Smart ensures perfect water quality
- Sophistication meets functionality with the elegant design and front access to water tank, bean container and all control elements

The Z6 moves into completely new territory, taking the automatic speciality coffee machine to the next level. The state-of-the-art generation of coffee machines is an impressive showcase of Swiss innovation. It achieves a brand new standard of quality across the whole spectrum of speciality coffees, from the short, fiery ristretto to the popular, mellow flat white. A self-explanatory operating concept with many customisable options makes it an impressive choice. For the first time, it even features automatic filter detection technology. All control elements can be accessed from the front for maximum convenience. The characteristic, simple lines combined with lovingly created details, such as the water tank and cup illumination, express the machine's style and status. The new JURA Z6: feast for all the senses.
